

July 26, 2021

Dear Valued Customers and Partners,

We are excited to announce that Cardea Catheter Innovations has been acquired by Cirtec Medical, a leading provider of outsourced medical device design, engineering and manufacturing services, headquartered in Brooklyn Park, Minnesota.

As a result of our business combination, our customers and partners will now have access to new capabilities, technologies and efficiencies. Cardea's proven expertise in design, development and manufacturing of minimally invasive catheter devices and complex delivery systems strengthens Cirtec's platform for growth in existing markets for active implantables and interventional devices and delivery systems and opens doors to new opportunities for customers.

We look forward to providing you with even more comprehensive and innovative product solutions and be better able to serve your current business needs as well as support you as a strategic partner for growth and expansion.

There will be no immediate change to the way we conduct business with you and your key sales contact will remain the same. We are dedicated to maintaining and increasing the quality of innovation, support, and service that you have come to expect from our companies. Your satisfaction is very important to us, and we want to hear from you. Should you have any comments, questions or concerns, please contact your sales representative.

Sincerely,

A handwritten signature in blue ink that reads "Brian Highley". The signature is fluid and cursive, written in a professional style.

Brian Highley  
CEO Cirtec Medical
